SPRING PUSHERS

Spring pushers is an efficient tool to keep perfect product presentation on shelf. They are widely used with different product groups – both in food and non-food retail stores.

Tobacco products

Chocolate & Sweets

Spices

Fish, meat and cheese slices

Hair colorants

Underwear

SLICED CHEESE, FISH, MEAT

It is often a challenge to display this type of products on shelf – they are thin and flat and it is difficult to maintain front facing. The right combination of dividers and pushers solves this problem.

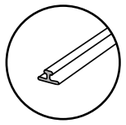
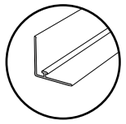
DIVIDER AND PUSHER FIXING PROFILES

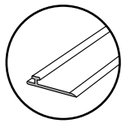
We offer a variety of fixing profiles to mount lock dividers, pushers and back supports on different types of shelves.



Narrow profile with adhesive tape is widely used for fixing low dividers – 30 and 60 mm high.



The L-profiles are good to use when you need not just fix the pushers and dividers, but also to avoid the products from falling. It is especially important when using spring pushers.



A wider fixing profile is needed to fix higher (120 and 200 mm) dividers.

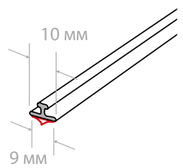
The rounded PRO30 profile has an integrated T-profile. So, you can combine products segmentation with merchandising.

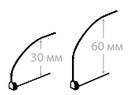
T-RAIL10 | **T-profile**

T-profile with adhesive tape (9 mm) for fixing the dividers on shelf.

Width: 10 mm.
Length: 1000 mm, 1250 mm, 1330 mm.

Color: Tr
Packaging: 10 pcs.



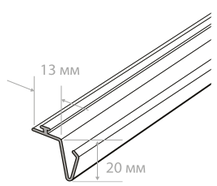


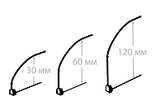
CODE
270004-xx

T-RAIL-TEGO | **T-profile with insert for Tegometall type shelves**

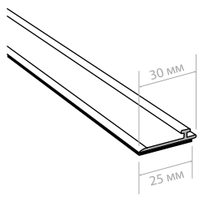
This profile is used when mounting dividers on Tegometall type shelves. The profile is inserted into the shelf slots in the front and back parts of the shelf.

Color: Tr
Packaging: 10 pcs.





CODE
270020-xx



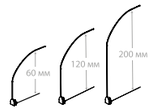
CODE	MOUNTING
270066-xx	SELF-ADHESIVE
270067-xx	

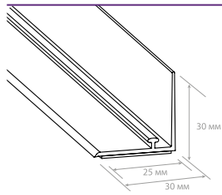
T-RAIL30-TF / TM | **T-profile**

T-profile with adhesive foam or magnetic tape (25 mm) for fixing the dividers on shelf.

Length: 1000 mm, 1250 mm, 1330 mm.

Color: Tr
Packaging: 10 pcs.





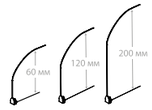
CODE	MOUNTING
270031-xx	SELF-ADHESIVE
270082-xx	

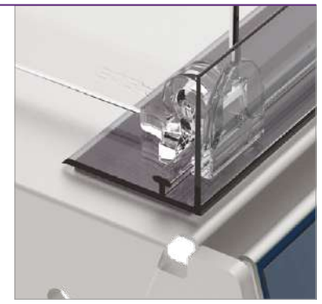
L-RAIL30-TF / TM | **L-Front riser**

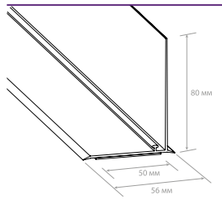
L-Front riser, with 30 mm high plastic front and integrated T-profile.

Length: 1000 mm 1250 mm, 1330 mm, 25 mm foam (magnetic) tape strip

Color: Tr
Packaging: 10 pcs., 40 pcs.







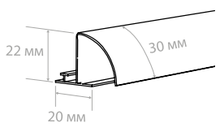
CODE	MOUNTING
270009-xx	SELF-ADHESIVE
270062-xx	

L-RAIL80-TF / TM | **L-Front riser**

L-Front riser, with 80 mm high plastic front and integrated T-profile.

Length: 1000 mm, 1250 mm, 1330 mm,
Height: 80 mm.
2*12 mm foam (2*25mm magnetic) tape strips

Color: Tr
Packaging: 10 pcs.



CODE
270034-xx-xx

PRO30 | **The rounded segmentation profile**

Used as a segmentation profile, it also can be used as a carrier rail for dividers, pushers and BACK supports. The height of paper insert is 30 mm.

The profile is fixed to shelf with adhesive tape.
Standard lenghts: 1000, 1250 mm

Color: Tr
Packaging: 10 pcs., 50 pcs.

MAGNETIC BASE PROFILES

We recommend to order profiles with magnetic base for installation to the coolers. These shelves require regular cleaning and the magnetically attached profiles can be easily removed and put back.

FORTA ROLL

FORTA ROLL system is a robust tool for efficient gravity feeding of products on shelf. It makes product replenishment easy, ensures great product visibility and helps to identify out-of-stocks.

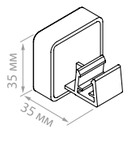
FIXING ACCESSORIES FOR PLASTIC FRAMES

A wide range of accessories fitting all our plastic frames from A6 to A1 allows to use frames in nearly every situation of a modern store environment. All items are on stock, mass production ensures low price on these products.

MAGNET-00 | **Plastic frame magnetic holder**

Plastic frame magnetic holder. Fixes frames at 0° angle. This is required when you need to fix the frame parallel to the surface. Depending on the frame size, minumum 2 holders per frame are required.

Color: Wh Sc
Packaging: 10 pcs.

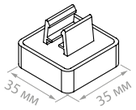


COLOR	CODE
White	102061
Black	102394

MAGNET-90 | **Plastic frame magnetic holder**

Plastic frame magnetic holder. Fixes frames at 90° angle. Depending on the frame size, minumum 2 holders per frame are required.

Color: Wh Sc
Packaging: 10 pcs.

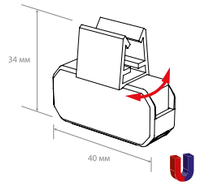


COLOR	CODE
White	102063
Black	102393

MAGNET-MINI | **Small plastic frame magnetic holder**

This is a smaller holder, compared to the MAGNET-90/00, but it is a good solution when you need to fix a frame on a small metal surface (e.g. a metal tube).
You can adjust the holder position vs base.
Recommended to use with A6,A5, A4 frames.

Color: Wh Sc
Packaging: 10 pcs.

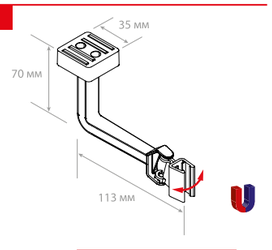


COLOR	CODE
White	102553
Black	102555

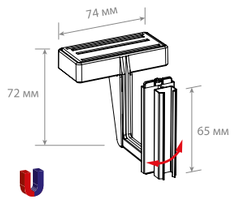
MGT-SW | **Swivel magnetic holder**

Swivel magnetic holder for using plastic frames as shopper stoppers.

Color: Wh Tr
Packaging: 10 pcs.



CODE
102171



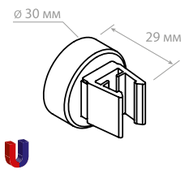
CODE
102580

MAG-FLEX-PF | **Vertical plastic frame holder with strong magnet**

This strong magnetic frame holder is fixed from the bottom or top part of the shelf.
It is a great tool to attract attention to featured products or segment product in the category.

Recommended to use with A6,A5 or A4 frames.

Color: Wh
Packaging: 10 pcs.

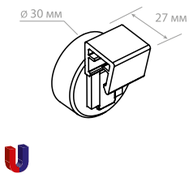


CODE
102202

MGT-RND-90 | **Round magnetic holder**

Round magnetic holder for plastic frames. Fixes frames at 90° angle.

Color: Wh
Packaging: 10 pcs.

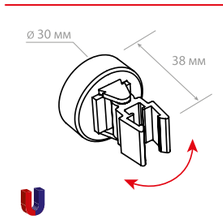


CODE
102227

MGT-RND-00 | **Round magnetic holder**

Round magnetic holder for plastic frames. Fixes frames at 0° angle.

Color: Wh
Packaging: 10 pcs.

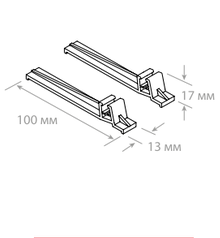


CODE
102228

MGT-RND-180 | **Round magnetic holder**

Round magnetic holder for plastic frames with a ratchet grip. Fixes frames at different angles.

Color: Wh
Packaging: 10 pcs.



CODE
102095

BASE-75 | **Support clip**

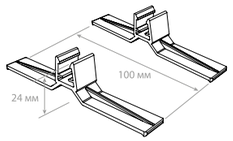
Support clip for angled positioning (15° incline) of plastic frames. Always recommended to use 2 clips per frame. Best if used with frames up to A3.

Color: Tr
Packaging: 20 pcs.

BASE-90 — Support clip

Support clip for straight positioning of plastic frames. Always recommended to use 2 clips per frame. Best if used with frames up to A3.

Color: Tr
Packaging: 20 pcs.

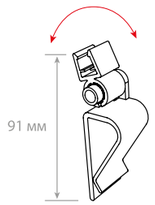


CODE
102097

FRAME CLAMP — Ratchet clip

Universal ratchet clip for fixing plastic frames on shelves, box and basket edges. The ratchet allows to fix the frame at a certain angle for better price tag presentation. Recommended to use with A6, A5 and A4 frames.

Color: Tr
Packaging: 10 pcs.

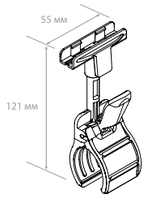


CODE
102099

CLAMP-T — Frame holder

Big clamp with integrated T-holder for plastic frames. Recommended to use with A6, A5, A4 frames. The T-holder with locks makes frame mounting easy, the soft clamp inlays ensure perfect grip on tubes

Color: Tr Sc
Packaging: 10 pcs.

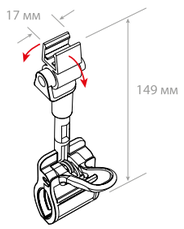


COLOR	CODE
Transparent	102186-00
Black	102186-10

CLAMP-T-SW — Swivel frame holder

Swivel big clamp with integrated T-holder for plastic frame. The swivel ensures the possibility to adjust the angle of plastic frames from 0 to 180°.

Color: Tr
Packaging: 10 pcs.

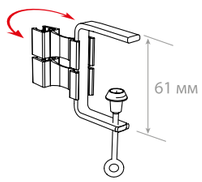


CODE
102233

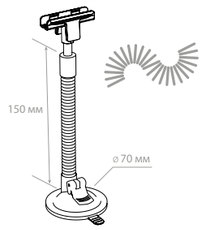
FIX-SW — Metal clamp

Powder coated metal clamp with 2 swivel plastic frame holders. The clamp can be fixed on any shelf up to 35mm thick. Recommended to use with A6,A5,A4 frames

Color: Wh
Packaging: 10 pcs.



CODE
102059

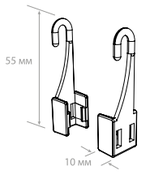


CODE
252766

SC-FLEX-T — Frame holder with strong suction cup

This holder is designed to fix plastic frames on any glass, plastic or metal surfaces when the position adjustment is needed. The strong suction cup at the base sticks well to the surface, while the flexible rod can be bent in any direction to achieve the necessary holding position.

Color: Wh
Packaging: 10 pcs.

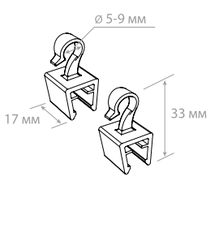


CODE
102049

F-CLIP — Swivel hanging hook clip

Swivel hanging hook clip for plastic frames suspension with a metal hook. Fixed on the left and right side of the frame, used in combination with ECOTRACK and UNITRACK suspension systems or wire baskets. Always used 2 hooks per frame (left and right)..

Color: Tr
Packaging: 20 pcs.

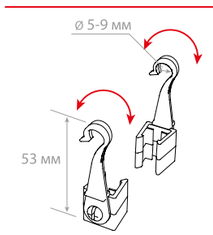


CODE
102193

UP-CLIP — Frame hook clip

Hanging hook clip for plastic frames suspension. Fixed on top side of the frame, used in combination with ECOTRACK and UNITRACK suspension systems. Fits the 9mm tube (e.g. used in combination with a magnetic sigh holder - MAG-SW-TUBE-L). Always used 2 hooks per frame.

Color: Tr
Packaging: 20 pcs.

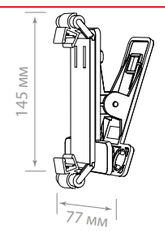


CODE
102051

F-CLIP-SW — Swivel hanging hook

Swivel hanging hook clip for plastic frames suspension. Fixed on the left and right side of the frame, used in combination with ECOTRACK and UNITRACK suspension systems. Always used 2 hooks per frame (left and right).

Color: Tr
Packaging: 20 pcs.



CODE
222408

V-CLAMP-PF — Double frame clamp holder

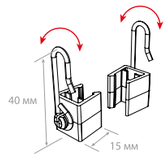
A great tool to organize pricing communication in Fruits & Vegetables Department. Recommended to use with two A6 frames, the frames color can be chosen from the standard range.

Color: Sc
Packaging: 5 pcs.

MF-CLIP — Swivel hanging hook clip

Swivel hanging hook clip for plastic frames suspension with a metal hook. Fixed on the left and right side of the frame, used in combination with ECOTRACK and UNITRACK suspension systems or wire baskets. Always used 2 hooks per frame (left and right)..

Color: Tr
Packaging: 20 pcs.

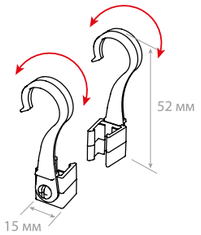


CODE
102215

TUBE HOOK — Swivel hanging hook clip

Swivel hanging hook clip for plastic frames suspension. Fixed on the left and right side of the frame, used to hang frames on 18-24mm tubes. Always used 2 hooks per frame (left and right).

Color: Tr
Packaging: 20 pcs.

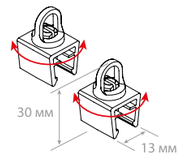


CODE
102189

H-CLIP-SW — Suspension ring clip

Suspension ring clip for hanging plastic frames. Fixed on the upper side of the frame. The swivel ring part allows to adjust the ring. Always used 2 pcs clips per frame.

Color: Tr
Packaging: 20 pcs.

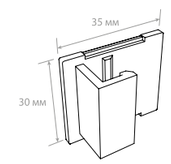


CODE
102047

WB-CLIP 00 — Foam tape clip for big frames

Strong and durable plastic clip for fixing plastic frames at 0(0) to the surface. Depending on the frame size you need 1 or 2 clips to fix one frame.

Color: Tr
Packaging: 20 pcs.

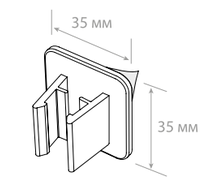


CODE
102298

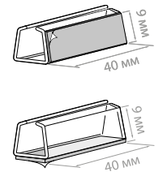
WB-CLIP 90 — Foam tape clip for big frames

Strong and durable plastic clip for fixing plastic frames at 90(0) to the surface. Depending on the frame size you need 1 or 2 clips to fix one frame.

Color: Tr
Packaging: 20 pcs.



CODE
102297



ANGLE	CODE
0	102067

MINI PLASTIC FRAMES

MINI frames is a great price communication tool when you need to highlight a limited number of products on shelf. It can be efficiently used in non-food shops, bakeries and coffee shops. It also works well to promote special offers - by using a frame of a different color.

If you want to fix a pricer or highlight a products on a glass shelf - MINI frames with TECHNO SUPPORT CLIP is a great solution !

The TECHNO SUPPORT CLIP is also can be combined with MINI frames to make stand-alone pricers.

MINI frames match really well with DELI series price holders making vivid pricers. Combine the colors of the holder and frame and add nice chalk writing !

Use the special price holder for ice beds - DELI-STICK-ICE - to mark pricing in the FISH department of your store.

A universal FX holder (plastic clamp) combined with A8 MINI frame creates an attractive pricer that can be fixed on a shelf, crate or basket.
You can make signature pricers, combining different colors of the holder and frame.

The MINI frames can be fixed on glass or wooden shelves with TECHNO COIL CLIP or TECHNO SUPPORT CLIP.
This works best fo electronics and other big products - when you have limited products on shelf and there is no need to use a datastrip.

With TECHNO COIL CLIP holder you can fix the MINI frames on most of the wooden shelves, thus making the problem of price marking in non-food stores solved.

MINI FRAMES AND FIXING ACCESSORIES

When you need separate pricers with a variety of ways to fix them in the point of sale - MINI frames is definately a great choice. With clips to fix them on metal, glass, wooden shelves they are a great tool to make your shop look nice and neat.

ELECTRONIC SHELF LABEL HOLDERS

ESL (Electronic Shelf Labels) are no longer a futuristic novelty. They have become a standard solution for many supermarkets, making them more efficient, informative and modern looking.

WHY ESL (ELECTRONIC SHELF LABELS)?

- improve opperations efficiency
- minimise pricing errors
- reduce labor costs
- improve customer perception of your store

WHY RIGHT ESL HOLDERS ARE SO IMPORTANT?

- minimise ESL theft
- minimise ESL damage
- ensure the labels are placed right
- maximise efficiency of you investment into ESL

WE OFFER A WIDE RANGE OF ESL HOLDERS:

- on shelf
- free-standing
- on hooks
- clip-on

FREE STANDING AND CLIP-ON ESL HOLDERS

Choose from a big size, color and fixing mode variety of our ESL holders. We have solutions for nearly every situation and ESL type.

The big clamp is a sturdy and reliable solution to fix ESL on basket, crates or product displays. It can hold a wide range of ESL - up to A5 size !

Our free standing ESL holders have an appealing look, are very simple to use and store and have a very attractive price.

Check with us your ESL brand and type to make a list of possible fixing solutions for your task!

Our range of DELI and SWIVEL price holders can be easily converted into ESL holders. Multiple combinations and colors will definately let you make your choice!

The big black clamp holder was originally designed for price cassettes. But it fits most of the ESL as well. It is a great choice for Fruit&Vegetable or Bread department.

DATASTRIPS AND ESL HOLDERS

ESL HOLDERS FOR SHELVES

On shelf ESL holders are similar to the standard datastrips - they are fixed on shelf using their back side, their front side is a C-channel designed for specific electronic shelf labels.

They usually have a hinge to provide the holders with flip-up function.

ESL on-shelf holders for wire shelves

Wire shelves have got very common on many markets. We have solutions for ESL for the most common wire shelves in our range - depending on your ESL type and order size it will be a two-part profile (back and front sides) or a one-part extruded profile.
The profiles can be cut according to your requirements.

ESL on-shelf holders for glass and wooden shelves

Glass and wooden shelves are mostly used in non-food stores: glass shelves are common in pharmacies and droggeries, while wooden shelves create a more nature-like look in a store of any type.
The shelf thickness is the most important criterion to choose the right ESL holder.
Depending on your ESL type and order size it will be a two-part profile (back and front sides) or a one-part extruded profile.
The profiles can be cut according to your requirements.

ESL on-shelf holders for metal shelves

Thanks to their strength and loading capacity, metal shelves are used in every supermarket and hypermarket. We have solutions for ESL for the most common metal shelves in our range - depending on your ESL type and order size it will be a two-part profile (back and front sides) or a one-part extruded profile.
The profiles can be cut according to your requirements.

To offer you the best solution we will need to know the brand and type of the ESL and the shelf specs.

We have a variety of options to offer to solve this task, each of them has their pros and cons - let our specialists define the one fitting your needs and your budget.

ESL HOLDERS FOR HOOKS AND SUSPENSION

Fixing ESL holders on hooks is not an easy task. It is usually required to provide flip-up feature for the label, so the holder must hold the ESL tightly and ensure the right price display angle.

Flip-up lable holder for hooks

This ESL on-hook holder is good for smaller ESLs, they are lighter and cheaper than extruded versions.
These holders fit most of the hook T-rods, but we recommend to test specific holders with specific hooks and ESLs.

Flip up hook label holder with adjustable angle

This injected hook lable holder consists of 2 main parts - 1) T-rod fixture with angle adjustment and 2) ESL clip. The 1st part is universal and fits most of the hooks present on the market. The 2nd part is a clip that fits the ESL of specific vendor (SES, Hanshow, Hanshow Nebular, Solum and others).
Please, discuss with us the ESL that you want to fix to offer you the right set.

Plastic clips for ESL suspension

Injected plastic clips to fix the bigger size ESLs on wire mesh or metal rails.
Depending on the ESL size, recommended to use 1 or 2 clips per tag.
The clips have open loop, so you can use them to fix the ESL on the box or crate edge as well.

We have several extruded and injected solutions to fix ESL on hooks. To ensure tight fixing we need to know the ESL brand and type. Some injected solutions allow label angle adjustment that is a very good way to ensure perfect price presentation to consumers.

4 PRICE LABEL HOLDERS AND PRICE CASSETTES

78 DELI price holders
82 Swivel price holders
88 Universal price holders
90 Big clamp price holders

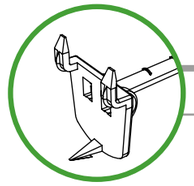
DISPLAY HOOKS

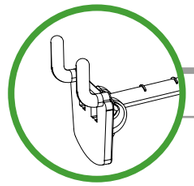
Plastic hooks are widely used in corrugated, plastic and metal displays. Being a cheaper alternative to metal hooks, they are also ligher and, if necessary, can be produced in different colors.

HOOK TYPES:



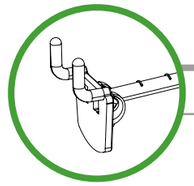
HOOKS FOR CORRUGATED WALLS

Widely used in cardboard displays, these hooks have a 3-spike backplate. There is no need to make holes in the corragated wall to fix these hooks, the spikes are sharp enougth to punch through the cardboard.



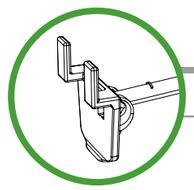
PEGBOARD HOOKS

A good alternative to standard metal hooks. Fits most of the 25 mm pegboards and many slatwalls. Different lenghts and hook types (single, double) available.



PEGBOARD HOOKS FOR THICK WALLS

A good alternative to standard metal hooks for thicker backwalls. Fits walls with 25 mm distance between holes. Different lenghts and hook types (single, double) available.



SLATWALL HOOKS

Fit most slatwalls on the market. Recommended to use with not heavy products. Different lengths and hook types available.

HOOKS FOR CORRUGATED WALLS

Fixed in the back wall with special harpoon-type spikes these hooks are usually used with cardboard displays. They are strong enough to hold most of the display items.
Standard lengths: 100, 150, 200, 250 mm.

SINGLE HOOK-CR — **Single hook for corrugated backwalls**

Fits most of the display products, you only need to choose the right hook length. The ribs on the upper part of the hook secure the product from slipping away.

Color: Wh
Packaging: 100 pcs.

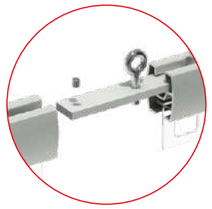
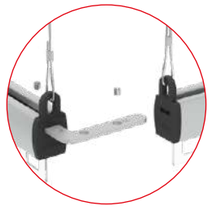
ECOTRACK SUSPENSION SYSTEM

The core part of the ECOTRACK system is the aluminum ECOTRACK profile. There is a variety of plastic and metal inserts and connectors that help to use it in different retail environments.



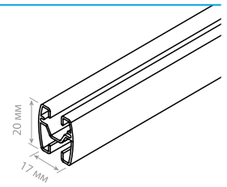


ECOTRACK | **Aluminum profile**

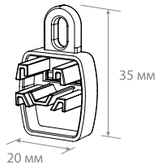
Lightweight but rigid aluminum profile. Usually is used in combination with UNI-LINE perforated insert and plastic frames.

Standard length – 2000 mm.

Color: Sl Wh Or Re Gn Bl
Packaging: 1 pcs.



CODE
282042

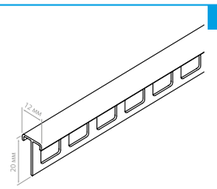


ECO-CAP | **Plastic cap with loop**

Plastic cap for ECOTRACK aluminum profile with an integrated loop. The cap and loop combination save time an makes it easy to use.

Color: Sc
Packaging: 10 pcs.

CODE
282043-10



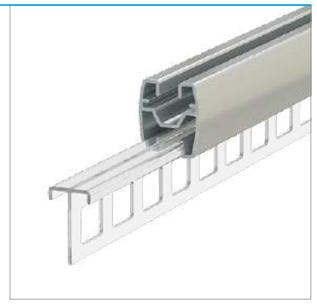
UNI-LINE | **Perforated insert**

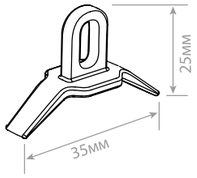
This T-shaped profile in inserted inside the ECOTRACK profile and makes it easly to hang up signs and posters along the aluminum rail.

Standard length – 1000 mm.

Color: Tr
Packaging: 2 pcs.

CODE
282020-1000





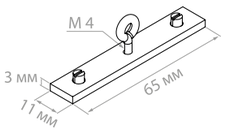
UNI-LOOP-P | **Plastic suspension loop**

This plastic loop is fixed into the upper channel of the ECOTRACK profile and can be slid along the profile with a little tension, thus making it easy to change its position.

At least 2 hooks recommended to use per 1 ECOTRACK profile.

Color: Sc
Packaging: 10 pcs.

CODE
282027-10

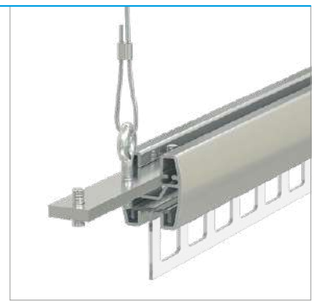


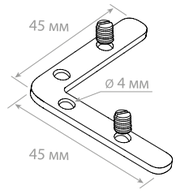
UNI-JOIN | **Metal connector with loop**

UNI-JOIN is a metal plate with 2 fixing screws and 1 bigger fixing loop. The plate is slit into the upper channel of the ECOTRACK profile and firmly fixed with the screws and loop in its position. It works best when you need to connect 2 ECOTRACK profiles with each other to make a longer suspension profile.

Color: Sl
Packaging: 10 pcs.

CODE
501498



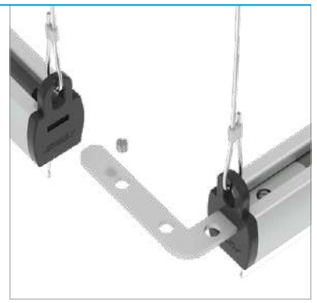


HT-CONNECTOR-90 | **Profile 90° connector**

This metal connector is used to unite several ECOTRACK profiles into rectangular module. To fix it, you need to push the punched holes in the ECO-CAP and tighten the connector screws.

Color: Sl
Packaging: 4 pcs.

CODE
282051



PRICE CASSETTES FOR SUSPENSION SYSTEMS

The A4 and A3 price panels are widely used in combination with aluminum suspension profiles in Fruit & Vegetables departments.

PC BOARD-A4 | **A4 Price cassette**

Color: SI
Packaging: 1 pcs.

WIRES, CONNECTORS, SUSPENSION ACCESSORIES

You can find a wide range of suspension accessories in our catalogue – wires, chains, hooks and wire clips. They are essential to create simple but reliable suspension systems. .

WIRE | **Steel wire**

Steel wire is recommended to us for suspension of aluminum profiles. To fix the length you can use WIRE-CLIP or WIRE-FIT clips.

Color: SI
Standard roll: 50 m, 10 m.

CODE
251005-xx

WIRE-CLIP | **Locking wire clip**

Used to lock the wire loop for suspension, this aluminum clip is very easy to use – just fix it with pliers and it is done.

One use only.

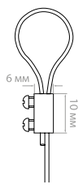
Color: SI
Packaging: 100 pcs.

CODE
251003

WIRE FIT | **Locking wire clip with screws**

This clip can be used many times. You fix the wire inside the clip with 2 screws (screwdriver needed, not included).

Color: GI
Packaging: 100 pcs.



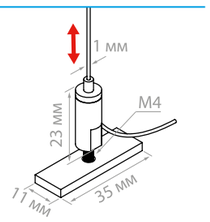
CODE
251229

FLEXIFIXER | **Adjustable wire grip**

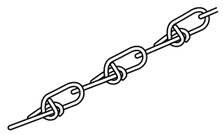
FLEXIFIXER is a great tool to adjust the wire length. You need to press the little button to release the wire, adjust the profile position and fix the position by releasing the button.

Designed to use with ECOTRACK profiles, but can be modified to use with other aluminum profiles.

Color: SI
Packaging: 1 pcs.



CODE
251168



CHAIN | **Metal chain**

Metal chain for sign suspensions to hang signs and banners.
It is designed to be durable and weather-resistant. The chain is connected to a hook (C-HOOK, S-HOOK)) or a loop at one end and a sign or banner at the other end. The length of the chain can be adjusted to suit the specific needs of the sign or banner being hung, and the metal construction provides the strength necessary to support the weight of the sign.

Color: SI
Standard roll: 30m roll.

CODE
251004-30

GREEK CLASP | **Small metal clasp**

A simple tool to connect signs and display parts to chains and wires.

Length: 25 mm
